

Together we do better

Dear Parents,

As part of our partnership with, you Le Petit Poucet Nursery and Kindergarten is glad to invite you to participate in a recycling project in coordination with "Keep It Clean".

What is Recycling?

Recycling turns materials that would otherwise become waste into valuable resources. In addition, it generates a host of environmental, financial, and social benefits. Materials like glass, metal, plastics, paper, and organic materials (food and green yard waste) are collected, separated, and sent to facilities that can process these recyclables into new materials or products.

Below are some recycling benefits:

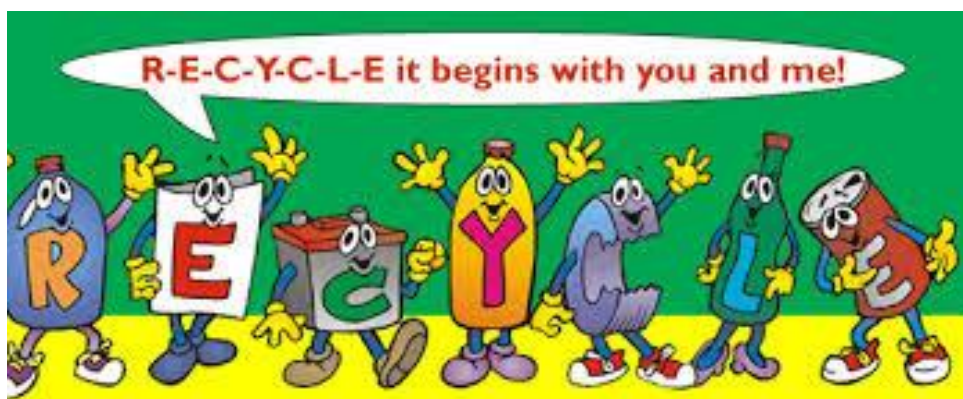

Conserves resources

- Saves energy
- Stimulates the development of greener technologies
- Supplies valuable raw materials
- Reduces the need for new landfills and incinerators
- Creates jobs

Who are 'Keep It Clean'?

Keep It Clean is a social enterprise aiming at providing easy solutions for individuals to take better care of the environment. They focus their solutions on waste management and recycling.

The aim of this yearly event is to help in saving the environment and teaching our children how to be eco-friendly. The plan is to eliminate litter and lead to zero residential waste-to-landfill.

We believe that it is each individual responsibility and duty to take care of our planet. So, let us start segregating our trash into the following:

- Plastic
- Paper
- Markers and pens

Then bring to Le Petit Poucet the above items in clean and neat condition and we will in turn pass it to Keep It Clean.

For more information, please contact your child's teacher.

Your participation is highly appreciated.

Kindest Regards,

Le Petit Poucet Management
